COLLETT

EXPERTS IN MOTION

New state of the art 8x8 Crane Vehicle!

Check out the latest addition to the Collett & Sons Ltd fleet; a new MAN TGS 41.480 8x8 Tractor Unit fitted with a Fassi F1150RA.2.26 115 Tonne/Meter Crane.

Once again, Collett Transport is providing industry leading equipment with an impressive 115 Tonne/Meter crane mounted on an 8x8 tractor unit. The crane features 6 boom extensions, with a lift capacity of 22 Tonnes at 4.15 Meters and 5.62 Tonnes at 15.45 Meters. The lorry loader has a gross vehicle weight of 90 Tonnes and is capable of self-loading and off-loading, eliminating the need for a mobile crane.

As previously mentioned, the tractor unit has an 8x8 chassis which allows all eight wheels to work as driven axles. This provides the lorry loader with added traction making it a perfect piece of equipment for heavy duty site work. The vehicle has the ability to be used as a heavy haulage tractor unit to pull trailers however, it has the additional option to be used as a ballast tractor to push or pull heavy payloads. Crane vehicles have become a prominent feature across Collett's diverse fleet and with the addition of this 115 Tonne/Meter crane, they continue to provide heavy lift and transport solutions.
